

BOTANICAL GARDENS TREEHOUSE

TERRIFIC TREEHOUSES DESIGN BUILD COMPETITION

DESCRIPTION:

The San Antonio Botanical Gardens hosted the Terrific Treehouses Design Build Competition in conjunction with the San Antonio Chapter of the American Institute of Architects. Kristin Wiese of Wiese Hefty Design Build and Mia Fritze of Lake Flato Architects designed the Bamboo Pavilion for interaction with visitors. Rather than a static object, we wanted to create something to draw people in. The bamboo panels pivot open and closed to hide or reveal the tree inside.
